

A Hi-Tech solution provider for most waste water problems

TOILET CLEANING POWDER

A blend of friendly aerobic bacteria and ingredients that have the following:

BENEFITS:

Digests organic deposits ✓

Environmentally safe and friendly ✓

Neutralises all bad smells (even urine) ✓

Clears Urea deposits from pipes ✓

Prolongs tank and pipe life ✓

Keeps commercial toilets smelling fresh ✓

Helps eliminate blockages ✓

Enviro Tablets™ Toilet Cleaning Powder is the complete environmental answer to all the problems associated with cleaning commercial toilets.

Reducing, or eliminating Urea deposits in pipes and helping to prevent blockages. The built-in components also prevent acid corrosion of the pipework.

They also remove all nasty smells and help keep the toilet bowl smelling fresh and clean.

Simply pour the Powder in the bowl once a week, leave to foam up (stubborn stains will need to be brushed with the foamed water) and then flush.

Comes in 40g sachets
AVAILABLE IN CONTAINERS OF 120 or 15

Enviro Tablets™ products provide an easily dispensed, environmentally friendly and effective solution –2018

Natural and environmentally safe & friendly bacteria based water treatment products

The Enviro Tablets™ product range is non-hazardous and environmentally friendly. They effectively clean out Fats/Oils/Grease, organic pollutants, improve water quality, prevent bad smells and acid corrosion in most water systems.

They are highly cost-effective and easy to deploy, requiring no mechanical dispensers, or other equipment. This saves time & money and reduces waste costs.

The product range consists of our rapid acting Boost Powder™ and a sustained release Tablets tailored for individual circumstances. All products contain AEROBIC Bacteria and “Active Oxygen” which converts the pollutants to water and carbon dioxide. The products also contain all the necessary ingredients to form a “Bacteria Friendly” environment—such as nutrients and buffers to raise the pH value of the water.

Other Applications

Grease Traps

Septic Tanks

Waste Water Treatment Plants

Aquaculture & Pond Maintenance

Car Washes

Cooling Tower Systems

Industrial Food Processing

Marine Sewage Systems

RV Sanitary Systems

About Us

Enviro Tablets™ is continually researching environmental solutions to solve pollution problems. We are always looking for effective technologies that can be bought to market. Enviro Tablets™ products do “exactly what it says on the label” and have been proven by many industrial and commercial organisations across the world. Our products are manufactured in the UK and the USA.

*Enviro Tablets™ can help you devise the correct “Dosing Schedule” to suit your situation

WHAT MAKES US DIFFERENT

The built-in special “Active Oxygen” component boost the water’s dissolved oxygen content. This is vital to allow the aerobic bacteria to grow and multiply. The Aerobic bacteria effectively remove the anaerobic bacteria, which by giving off hydrogen sulphide are responsible for the bad smells associated with dirty water. The other components help to raise the pH value of the water which is good for the bacteria and help reduce “Acid Water Erosion” in the pipes of your system.

The products are not a “Quick Fix” solution, they require a period of time to establish a viable bio-mass that will coat the entire system, consume the existing pollutants and deal with the newer pollutants being generated. After this period they require regular weekly dosing to ensure the bio-mass is kept at full strength.
